

How to access the ZAP Montérégie wireless network

You must have a laptop or PDA (iPhone, iPod, Blackberry Smartphone, etc...) that has wireless capabilities (Wifi 802.11 b, g or n).

If you are at a ZAP Montérégie hotspot:

1. Your WIFI card should find the wireless network (SSID):
ZAP- "hotspot designation"
Select it and connect
2. Launch your web browser. You should automatically be taken to the ZAP login page
3. a. If you are already a user, enter your ZAP username and password
3. b. To become a ZAP user, click on the button:
"Create a free account"
and follow the on-screen instructions

www.zapmonteregie.org

Create a user account:

- at a ZAP hotspot or
- on internet by logging in the "zapmonteregie.org" web site

Important note when creating a user account. You need:

1. to go to your email account (or possibly spam mail) within 20 minutes of registering
2. to read the ZAP Montérégie message
3. and click on the link to activate your user account

If you have problems at a hotspot:

- *Make sure that your network configuration is set up to obtain an IP address automatically (DHCP)*
- Make sure that you aren't using a proxy server

Free wireless internet access

Thanks to the
ZAP Montérégie
team and the
hotspot owners
network
