Why become a ZAP Montérégie hotspot?

Simple and low cost for the majority of our clients because we are a non-profit organization.

As more and more people have a laptop or PDA (Personal Digital Assistant) such as an iPhone, iPOD Touch, Blackberry, etc… with wireless (Wifi) capabilities, they look for hotspots to have access to internet or to their emails.

By becoming a hotspot:

- you offer a value-added service to your existing customers

- you attract new customers

- you create clientele loyalty

- you set yourself apart from your competitors

- you can put your logo on your ZAP hotspot home page

- you get to contribute to your community while becoming a part of our high-visibility and newsworthy project

www.zapmonteregie.org

We are not in it for the money but for the benefit of our community

Your contribution:

- You share your existing internet connexion
- You pay 100$ for a router modified for ZAP service. You own it and we connect it to your existing router.
- You pay a 100$ annual contribution to become a member of the ZAP network.

Our contribution:

- Promotion of our ZAP service
- The installation and configuration of your ZAP router
- Free maintenance should you experience problems with your ZAP hotspot.
- Software and firmware updates for our server and your routers
- Network surveillance and management
- Maintenance of the ZAP web site
- Travel expenses
